Program Summary

The Hub is a School-Based Youth Services Program dedicated to the emotional, social and academic success of MMS youth. With our own office in the school, we deliver mental health counseling, skills-building and prevention services, recreational activities, special events, and academic support. Working in collaboration with school personnel and community groups, our services help youth and their families build strength, character, compassion and optimism about themselves and their futures, so they can form healthy relationships, make positive choices and achieve success both in Middle School and beyond. After school, the Hub is open for supervised recreation including, videogames, ping pong, foosball, board games, computer use and hanging out with friends. All services and events provided by the Hub are free of charge.
