

South Orange Maplewood School District Preschool Program

July 24, 2019

Dear Preschool Parents/Guardians,

The new school year will bring about a new experience for all students and their families attending the District's Preschool Program. The implementation of the Preschool Education Expansion Aid (PEEA), designed to offer high-quality early learning, is allowing the district to serve even more resident students for the 2019-2020 school year.

While we had an unprecedented interest in the program, a random selection of applicants led to the assignment of students to three sites thus far, Applecore Learning Early Childhood Center, Marshall Elementary portable classroom and Montrose Early Childhood Center. New students were selected based on a lottery system drawn in accordance with the District's Registration Policy and Regulations. Our commitment to preschool education is fostering partnerships with local child care providers to secure additional classroom space for South Orange and Maplewood students to have access to a high-quality preschool experience.

As the program continues to grow, the research-based curriculum (Tools of the Mind) and developmentally appropriate assessment practices (Teaching Strategies GOLD) will be implemented with uniformity across all sites. An oversight team has been assembled to provide program leadership, professional development and support for the staff throughout the year.

For all children that did not have a secure seat, they are on a waiting list based on their lottery number. When more classrooms become available, families will be notified.
