

COME MAKE SOMETHING AT

MAKER MADNESS

Find out what "STEAM" Education is all about!

- Explore Science and Engineering by making things that crawl, shoot, roll and fly.
- Experience Technology in live demos and workshops.
- Be creative with Art projects that show you how things are made.
- You use Math every day, when you don't even know it!

Learn by doing!

20+ hands-on activities for children K-8 including:

3-D printing

"Play Dough" electronics

Hour of Code

Sewing and knitting

Wood working

Doll Crafts

Lego animation

Robotics

Origami and much more...

Free to the public.

Parents, please accompany your children to the event.

More information at achievmakermadness.org or [973-378-2055](tel:973-378-2055). To volunteer time or supplies (Legos needed!) contact larry.boyer@gmail.com.
