October 11, 2024

Dear South Orange and Maplewood Caregivers,

Last year, the district partnered with Bryant, Gemza, Keenoy, and Kozlik to conduct an in-depth evaluation of our special education services. This review assessed our compliance with N.J.A.C. 6A: Chapter 28 and the overall quality, efficiency, and effectiveness of our programs for students with disabilities.

The [Special Education Audit](#) analyzed key function areas and provided valuable recommendations and opportunities for further professional development. Their findings will help us improve how we are serving students with special needs.

We'll be presenting the results of this audit at the upcoming Board of Education meeting next Tuesday, October 15. The audit will be posted on the SOMSD website under Departments → Special Services for review. There will also be a link to a Google Survey for questions and comments about the audit posted on Monday, October 14th for your use. Thank you for reading and for your continued support of our students and schools.

Thank you,

Jason Bing
Superintendent of Schools
